THE MARK OF A CHAMPION . . .

When a young man and young woman can face the business world with the same undaunted courage that he or she displays in their daily school life and can take the discouragement that will inevitably come to them in business, and can keep their fighting spirits and keep smiling . . . then they have the mark of a champion. The world needs young people like this and the world will make way for them. The life insurance business needs such young men and women, so why not prepare yourself for a career in the life insurance business. It's a business of opportunity for young men and women of ambition and vision.
